Mayor's Corner

Council meeting
Wed., Oct. 17
@ 9 AM
Village office

* *

Thank goodness we live in a democratic country which gives us the right to have different views on issues. We have a right to make our views known and to sign petitions.

What upset Council about the loading of sweet crude on the rail line were the few ratepayers who attended the information meeting, the amount of misinformation that was circulated, and the number of people who believed it.

We do not know for sure if there will be odors, extra dust, or extra traffic. Crescent Point has told us this will NOT be a 24 hour loading process, and we know the oil cars will not be lined up from one end of the track to the other.

Council supports the idea because we believe the economic spin-off from the project will be good for our community and our rail road.

Our thanks to those who contacted us directly to discuss the matter.

QUESTION :

Does the morning Council meeting prevent you from having a say in Village matters?

The time is set at the October meeting when the annual meeting is held, so please let us know your opinion soon.
